

Call for Innovation (CFI)

Northern Ontario Research Project Proposals

Objective:

General Dynamics Mission Systems—Canada (GDMS-C) is seeking project proposals from researchers in the Northern Ontario region of Canada.

Requested Innovation:

To be taken into consideration proposals must:

- Be submitted by Universities in Northern Ontario. For the purposes of this CFI Northern Ontario is meant to consist of that part of the province of Ontario northward from the southern limits of Nipissing and Parry Sound Districts;
- Have a timeline not exceeding 1 September 2017; and,
- Make use of the full \$160,000.00 CDN available for this CFI*.

**Proposals must provide clear explanation of how proposed outcomes can be achieved without exceeding the \$160,000.00 funding available for this CFI. Proposals with budgets exceeding the funding available for this CFI must clearly identify the source(s) of additional funds required.*

Timeline for Responses:

Proposals must be submitted by Close of Business August 1, 2016.

Instructions for Responses:

Proposals must be submitted in the form of a maximum five-page** whitepaper. Please submit whitepapers to shawn.roy@gd-ms.ca with a copy to edgeinnovation@gd-ms.com. The EDGE team will review submissions against the following criteria:

- Alignment of proposed research outcomes with General Dynamics Mission Systems—Canada business objectives***;
- Quality and viability of proposed outcomes;
- University's experience in managing similar projects;
- Experience of research team;
- Matching funds contributed and/or available;
- Number and level (Undergraduate, Masters, PhD) of students involved; and,
- Number and experience of postdoctoral fellows involved.

***Proposals must be single-spaced 12pt font Times New Roman. Page limit excludes any researcher and/or student profiles.*
