

INNOVATION NETWORK

EDGE® KMS 2.0 Technology Capability Matching Portal

to customers and users leveraging EDGE KMS 2.0 as a source of market research information.

As a government participant, EDGE KMS 2.0 supports **DoD's Better Buying Power 3.0** initiatives; keeping you connected to industry and technology in the following ways.

Increase small business participation, including more effective use of market research.

EDGE KMS 2.0 is a directory of primarily small business (over 74% of EDGE members are small business) technology providers and academic researchers. EDGE KMS 2.0 allows you to conduct routine real time technology foraging keeping informed of what industry has commercially available. EDGE KMS 2.0 provides you with contact information and informed capability

searches to collaborate with industry and academia directly.

EDGE® KMS 2.0 is a user-friendly web-based tool for industry, academia, non-profit EDGE members and government participants to intelligently map capabilities to technology gaps and requirements. EDGE KMS 2.0 enhances the EDGE process of technology matchmaking. EDGE KMS 2.0 connects those seeking technology (government participant) with those that have technology (EDGE members).

The online portal is open to EDGE members and government participants. The tool is available to your team to investigate technology and capability matches with potential collaborative partners or end users. Data driven decisions, on who to partner with around a technology gap, are derived from EDGE members' KMS 2.0 profile pages - think of them as 'technology Facebook pages.' Information about members include: their capabilities, contact information, keywords, locations, documents, demonstrations links and a repository of data derived from their public webpage linked to EDGE KMS 2.0. All of this data is accessible to every tool user.

As an EDGE member you can identify potential collaborators by searching: member profile pages, documents, capabilities.

We put the power of the EDGE network at your fingertips, 24 hours a day via online access. Real time access allows you to update your information as your capabilities develop keeping the community informed of your technology development, products and services. EDGE KMS 2.0 integrates your website into our search features via a specialized webcrawling and indexing service, saving you hours on potential duplication of data entry. EDGE KMS 2.0 markets your organization and your capabilities

Improve technology search and outreach in global markets

EDGE KMS 2.0 has members from industry and academia that span the globe in the following countries: United States, Canada, United Kingdom, Denmark, Australia, India, Finland, Netherlands, Israel and Sweden. We also have 4 international innovation centers (three in Canada and one in the United Kingdom) and 3 virtual innovation centers with global communities of interest.

EDGE KMS 2.0 is **one of many tools** that EDGE Innovation Network fosters and develops in its collaborative, open-environment initiative enabling industry and academia, with government input, to work together to enhance the delivery cycle of new technologies and innovative capabilities to military personnel, government agencies, law enforcement personnel, first responders and end users of technology worldwide. The key to the EDGE Innovation Network is that it is truly collaborative and open to any organization to join; there is no cost to join the EDGE Innovation Network nor a cost to utilize our innovation tools.
